

The Latest News From MDL Manufacturing

First Lego League Competition Recap!

Last month you read about MDL sponsoring the Chestnut Ridge First Lego League Team, Lego Lions...and we are happy to announce that the team placed 1st in Teamwork and 9th out of 21 teams in Programming! Congrats Lego Lions! The students really enjoyed the event saying the following...

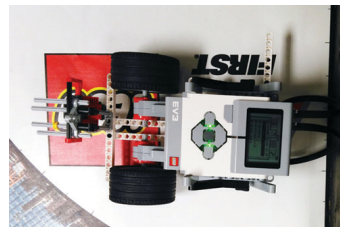

"It was a good experience, because programming is neat." - Alex

"Patience is key! Programming was our biggest challenge and we had to have patience to complete our mission." - Gabby

"It is the fun that matters, not the place. We placed 9th overall, but more importantly we had a lot of fun." - Elijah

"It was awesome!" - Lakilyn

It's great to see students excited about programming and robotics! If you want to see a video of the robot in action, click on the picture to the right!

Celebrating 10 Years

In celebration of 10 years with MDL, we presented Kenny Benton with a new Ghost bike as a token of our appreciation. Thanks, Kenny, for all of your hard work and dedication over the years! We truly appreciate it!

MFG Day 2016!

MDL will be hosting a Manufacturing Day event this year on October 7, 2016! As with previous Manufacturing Days in the county, our focus will be on the students from the local schools. We plan to highlight the various faces of manufacturing while showing students the countless possibilities that exist within the world of manufacturing. Kennametal hosted a great event last year and we hope that the manufacturers in the region can once again come together to put on an event that makes a positive impact on our students. Stay tuned for more information!

The River System installation is coming along at a steady rate. All machines are functional and we are waiting on the finishing touches! We look forward to the River System being a big hit at this year's Manufacturing Day!
